Code Concept Map

Student Name: _____

Date ___ / ___ /___

On this page, please draw a concept map showing how you think the concepts below are related to one another.

Algorithm

Code

Conditional

Data Type

Function

Integer

List

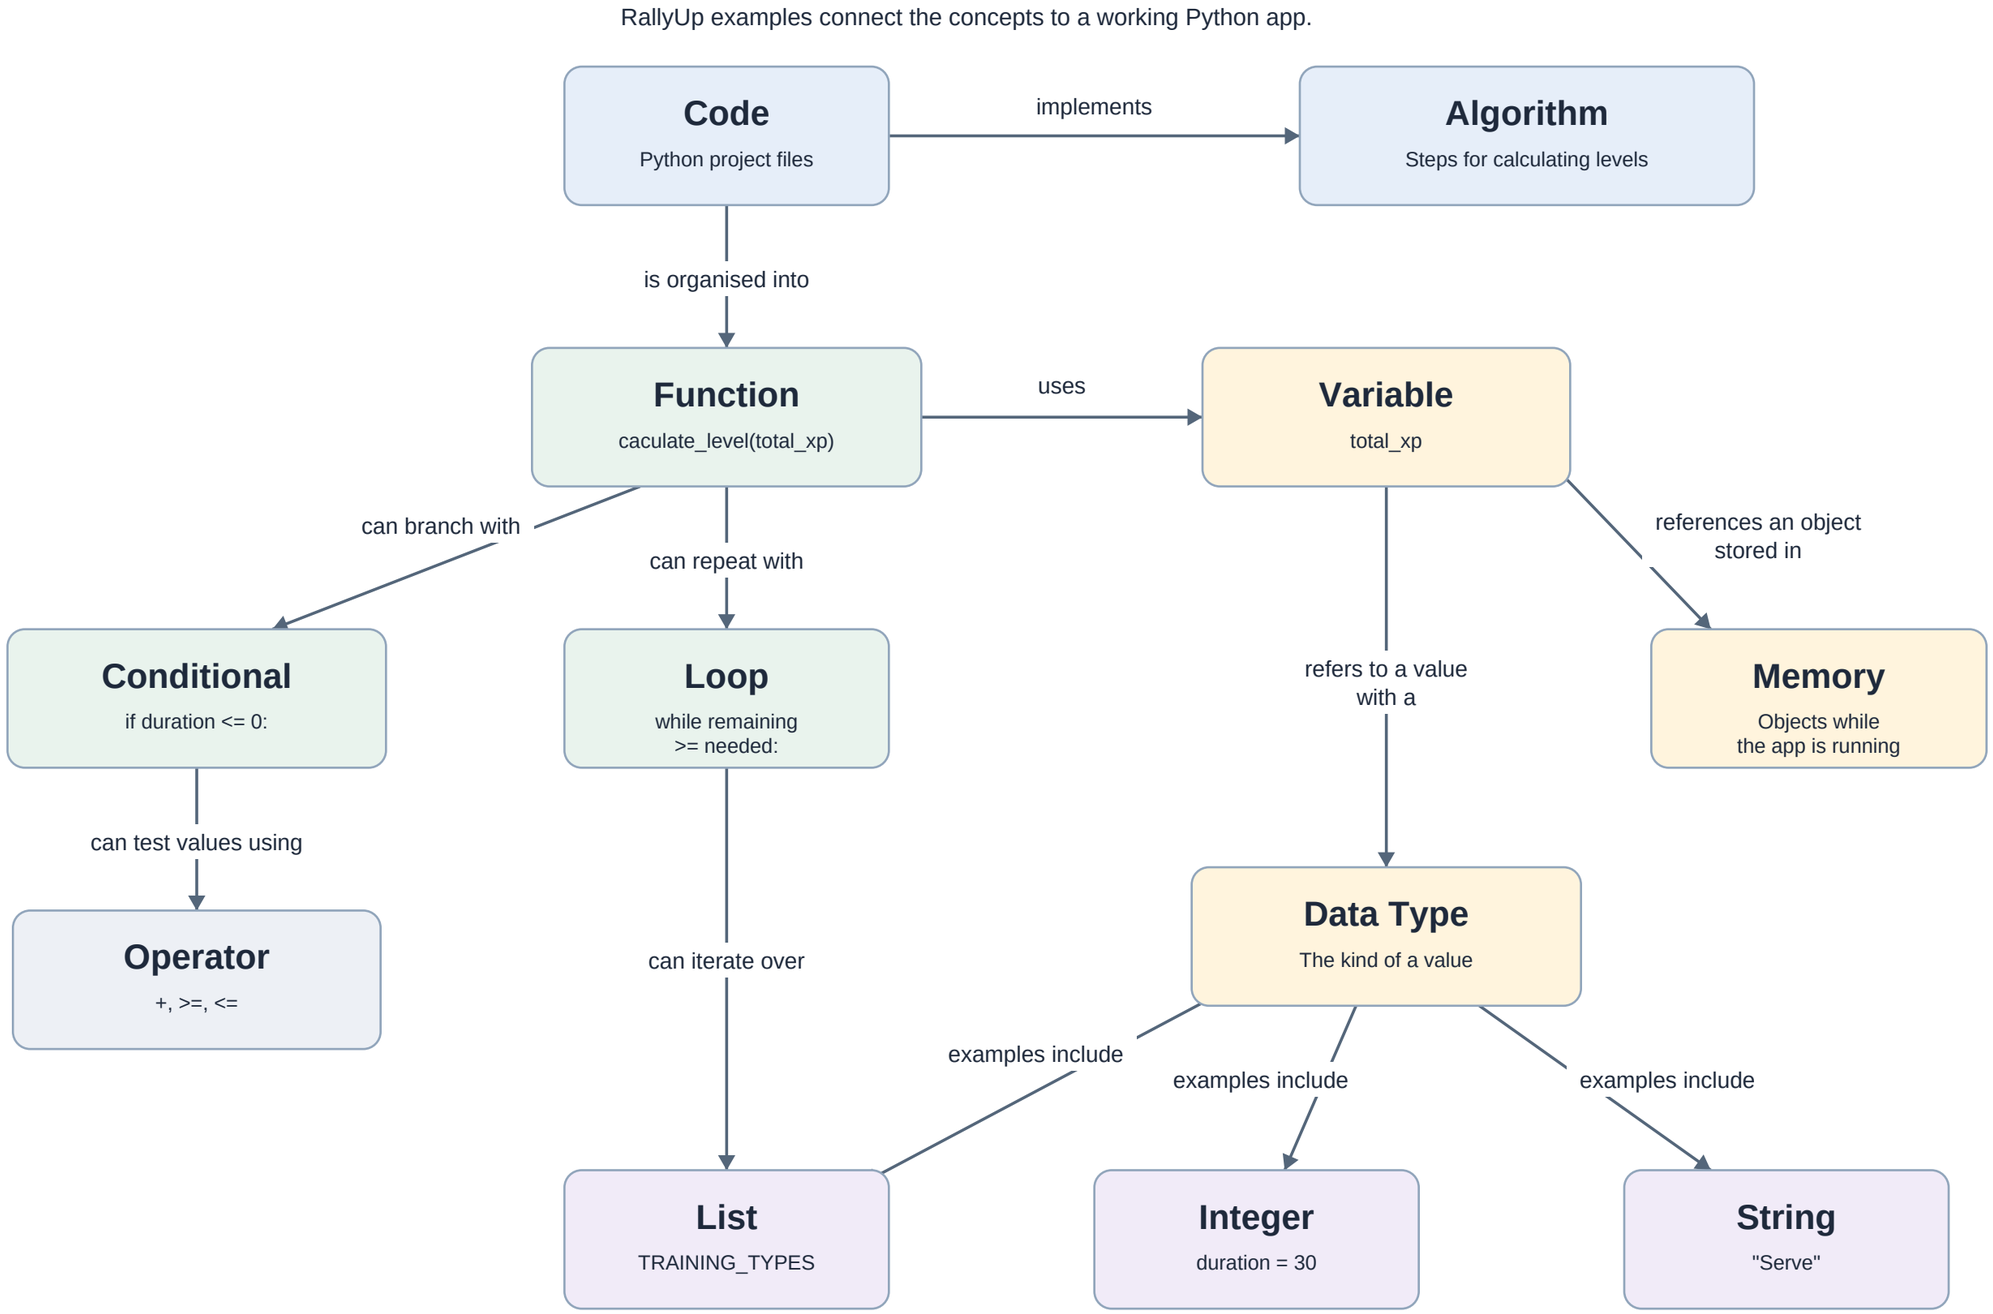
Loop

Memory

Operator

String

Variable



Memory means runtime memory here; saved practice history is kept in SQLite.

Arrows show relationships between concepts, not the order the program runs.

Remember to take a photo of your map to keep as a record once you're done.
